# Water Tank Liner Characteristic

- This product is made by Polyethylene, so it is environmentally friendly.
- Product is really light, so it is easy to handle it, when you fabricate.
- Our product is quite light, but it has good tensile strength and Tear Strength than PVC products.
- The cost will be valuable than PVC.
- This product is thin; however, it has enough potential ability of water resistance for more than 25mtrs.
- We can laminate with UV stabilizer; therefore, the product can be life longer.

# Water Tank Liner #7100

Width : maximum 3.66m width

Water Resistance : 25m

Minimum quantity : more than 6,000m by 3.66m width

Color : your favorite color

\*We offer the color you are looking for.  
Please simply let us know what you  
would like.

# Water Tank Liner #6100

[Application]

**Industrial Tank Liner and Large size tank line cloth etc...**

These Values are typical data and not intended as limited specifications.

## -Product Detail-

Weight : approx.378g/m<sup>2</sup> (11.1oz/sq.yd)

Width : maximum 1.83m width

Waterhead : more than 25m

Minimum quantity : more than 6,000m by 1.83m width

Color : your favorite color

\*We offer the color you are looking for.

Please simply let us know what you would like.

# Water Tank Liner #5100

【Application】

Industrial Tank Liner and Large size tank line cloth etc...

These Values are typical data and not intended as limited specifications.

-Product Detail-

Weight : approx.347g/m<sup>2</sup> (10.2oz/sq.yd)

Width : maximum 1.83m width

Waterhead : more than 25m

Minimum quantity : more than 6,000m by 1.83m width

Color : your favorite color

\*We offer the color you are looking for.  
Please simply let us know what you  
would like.

# applications and inquiries

Persistently, this catalog created by making into an example  
the product based on the requirement of the existing our customer.

However, these products are not all of our products.

Our true logic and vision are "The next one in future",

Come think products together with us.

Could you please do not hesitate to contact us.

We would like to produce best performance product for each of you.
